CT SCAN Guided Cyst Aspiration

PREPARATION FOR YOUR TEST

1. Blood thinners must be stopped prior to procedure. (Patient should check with their physician before stopping)
2. Nothing to eat or drink eight hours prior to exam.
3. Bring medications or a list of them to appointment.
4. Patient must bring a driver.
5. Recovery may be up to two hours.
5. If recent scans not done at BHC, send to BHC X-ray or bring to appointment.
